

CLOUDOPTY

End-to-end Cloud Optimization

Do you know your CloudScore ?

CloudOpty provides CloudScore for end-to-end optimization of your Cloud Platform to help you save cost, improve performance, increase security, and ensure compliance.

Are You Spending too much on Cloud ?

01

Cost Optimization

Explore cost optimization opportunities for key resources and services

03

Compliance

Ensures that your cloud services meet compliance, regulatory requirements, frameworks, and guidelines.

Usage Analytics 02

Improvement is followed by measurement and that's our main expertise area. We provide you detailed reports and analytics of the current resources, services usage, and their associated costs.

Security Control 04

A collection of security measures designed to protect cloud-based infrastructure, applications and data

PARTNERS/PRESS RELEASE

Google Cloud
Partner

**CloudOpty announces
CloudScore™**

With this latest version, we have created a CloudScore™ that helps you assess your cloud landscape. It's like a Credit Score, giving you a way of comparing your implementation to industry peers

CASE STUDY

Cloud is the inevitable solution for businesses to grow these days. But most of the businesses along with increasing their sales and revenues end up increasing the Cloud expense as well. Download this Free Case Study to know more about Retail Client.
